PROJECTS

Movie World | 2024

A simple movie site showcasing trending movies and detailed information like synopsis, ratings, and cast. Built using HTML, CSS, JavaScript and Bootstrap, with data fetched from a reliable movie API.

Weather Site | 2024

A simple weather site providing real-time updates with temperature, humidity, wind speed, and more. Built using HTML, CSS, and JavaScript, with data fetched from a reliable weather API.

Portfolio Website | 2024

A visually stunning and interactive portfolio website designed to showcase my skills, projects, and achievements. This project highlights my ability to create modern, responsive, and user-friendly web experiences, providing potential clients and employers with a comprehensive overview of my work.

- *Technologies - HTML, CSS, Javascript*
